WHAT IS NEURO-AGILITY?

Neuro-agility is about optimizing the brain-based elements that influence the ease, speed & flexibility with which learners think, learn & process information. Developing & optimizing these elements, are the starting point for learners to improve their brain fitness & mental flexibility in order to thrive & be more employable, successful & effective in a volatile, uncertain, complex & ambiguous (VUCA) world.

WHAT IS THE NAP™ TOOLBOX

NAP™ is an abbreviation for the **Neuro Agility Profile™** assessment. The Toolbox is the most comprehensive, multi-dimensional brain profile assessment of its kind for children. It measures 13 elements that influence the ease, speed & flexibility with which learners learn, think & process information. The purpose of the NAP™ Toolbox is to identify children's unique potential, improve their mental flexibility, brain fitness & brain health.
